Dear Geoff:

We would like to thank Artisan Partners for your excellent service regarding the build out of XML Financial Group's new office space. It was through your skill and know-how that the project successfully came in on budget and on time.

With Artisan Partners handling the construction management, we were free to concentrate on what we do best: financial management. You were there for us through every step of the process --- helping us select the architect, bidding the project out, reviewing proposals, and managing the work.

We cannot stress enough how pleased we are and be assured that we would give Artisan Partners a most hearty recommendation to prospective clients.

Regards,
